Encyclopedia of Lifestyle Medicine and Health

James M. Rippe, MD 2011-12-08 Encyclopedia of Lifestyle Medicine and Health offers thorough coverage of relevant topics and issues in historical and contemporary context, with information on lifestyle habits and practices and their impact on health. These volumes sort out the science behind nightly news reports and magazine cover stories, helping the reader to discern sound, evidence-based advice from that which is merely fad. The volumes convey the latest research on lifestyle medicine, incorporating content from such areas as health psychology, communication, public policy and health promotion, and disease prevention, among others. Readers are empowered to lead and promote healthier lifestyles after perusing the hundreds of signed, authoritative entries written by leading experts in their respective fields. Accompanying bibliographies and suggested readings provide guidance toward more in-depth resources. This comprehensive reference resource is written accessibly, making it useful for a broad audience, including students and academics in the fields of health, physical education, biology, medicine, nursing and allied health, physical therapy, nutrition, public health, and health communication, as well as for lay readers interested in learning how to lead a healthier lifestyle.

Violence and Abuse in Society Angela Brownemiller Ph.D. 2012-08-17 Suitable for professionals, students, and lay readers alike, this book provides an immensely informative, profoundly moving, and remarkably comprehensive look at the range and nature of violence and abuse by and of humans today. Angela Browne-Miller, PhD, is editor of this comprehensive and unique set of four volumes containing over 110 chapters from over 130 international experts with backgrounds in behavioral science, social science, law, and medicine, as well as researchers, practitioners, and lay persons with varied specialties. These volumes cover the following areas reflected by their titles: Volume One: Fundamentals, Effects,

and Extremes; Volume Two: Setting, Age, Gender, and Other Key Elements; Volume Three: Psychological, Ritual, Sexual, and Trafficking Issues; and Volume Four: Faces on Intimate Partner Violence. This collection looks at the range of violence and abuse we see today, conducting a detailed examination against the backdrop of a history of violence and abuse around the globe. The works within focus for the most part on violence and abuse taking place outside of war contexts, discussing road rage, child abuse, elder abuse, abuse of women and girls, sex slavery, violent rituals including female genital cutting, abuse within cults, domestic violence, gun violence, and modern problems fueled by technology, including cyberbullying and cyberstalking.

Family Law Mary Welstead 2013-06-13 This work provides a clear introduction to family law, giving concise coverage of major undergraduate topics, such as civil partnership, domestic violence, divorce and the role of the state in children's upbringing.

Handbook of Child Maltreatment Jill E. Korbin 2013-11-26 This Handbook examines core questions still remaining in the field of child maltreatment. It addresses major challenges in child maltreatment work, starting with the question of what child abuse and neglect is exactly. It then goes on to examine why maltreatment occurs and what its consequences are. Next, it turns to prevention, treatment and intervention, as well as legal perspectives. The book studies the issue from the perspective of the broader international and cross-cultural human experience. Its aim is to review what is known, but even more importantly, to examine what remains to be known to make progress in helping abused children, their families, and their communities.

Responding to Domestic Violence Eve S. Buzawa 2015-10-01 This new edition of the

bestselling *Responding to Domestic Violence* explores the response to domestic violence today, not only by the criminal justice system, but also by public and non-profit social service and health care agencies. After providing a brief theoretical overview of the causes of domestic violence and its prevalence in our society, the authors cover such key topics as barriers to intervention, variations in arrest practices, the role of state and federal legislation, and case prosecution. Focusing on both victims and offenders, the book includes unique chapters on models for judicial intervention, domestic violence and health, and children and domestic violence. In addition, this edition provides an in-depth discussion of the concept of coercive control in domestic violence and its importance in understanding victim needs. Finally, this volume includes international perspectives in order to broaden the reader's understanding of alternative responses to the problem of domestic violence.

Extent, Nature, and Consequences of Intimate Partner Violence Patricia Tjaden 2012-07-17

This report presents findings from the National Violence Against Women (NVAW) Survey on the extent, nature, and consequences of intimate partner violence in the United States. The National Institute of Justice and the Centers for Disease Control and Prevention cosponsored the survey through a grant to the Center for Policy Research. The survey consists of telephone interviews with a nationally representative sample of 8,000 U.S. women and 8,000 U.S. men about their experiences as victims of various forms of violence, including intimate partner violence. The survey compares intimate partner victimization rates among women and men, specific racial groups, Hispanics and non-Hispanics, and same-sex and opposite-sex cohabitants. It also examines risk factors associated with intimate partner violence, the rate of injury among rape and physical assault victims, injured victims' use of medical services, and victims' involvement with the justice system. Research on intimate partner violence has increased dramatically over the past 20 years. While greatly enhancing public awareness and understanding of this serious social problem, this research has also created much controversy and confusion. Findings of intimate partner

victimization vary widely from study to study. Some studies conclude that women and men are equally likely to be victimized by their partners, but others conclude that women are more likely to be victimized. Some studies conclude that minorities and whites suffer equal rates of intimate partner violence, and others conclude that minorities suffer higher rates. In addition, there are many gaps in the scientific literature on intimate partner violence, such as the level of violence committed against men and women by same-sex intimates. Little empirical data exist on the relationship between different forms of intimate partner violence, such as emotional abuse and physical assault. Finally, little is known of the consequences of intimate partner violence, including rate of injury and victims' use of medical and justice system services. This Research Report addresses these and other issues related to intimate partner violence. The information presented in this report is based on findings from the National Violence Against Women (NVAW) Survey, a national telephone survey jointly sponsored by the National Institute of Justice (NIJ) and the Centers for Disease Control and Prevention (CDC). The survey, which was conducted from November 1995 to May 1996, consists of telephone interviews with a representative sample of 8,000 U.S. women and 8,000 U.S. men. Survey respondents were queried about their experiences as victims of various forms of violence, including rape, physical assault, and stalking by intimate partners. Victimized respondents were asked detailed questions about the characteristics and consequences of their victimization, including the extent and nature of any injuries they sustained, their use of medical services, and their involvement with the justice system. This Research Report also summarizes the survey's findings on victimization rates among women and men, specific racial groups, Hispanics and non-Hispanics, and opposite-sex and same-sex cohabitants. It examines risk factors associated with intimate partner violence, rates of injury among rape and physical assault victims, injured victims' use of medical services, and victims' involvement with the justice system. Although this report focuses on women's and men's experiences as victims of intimate partner

violence, complete details about men's and women's experiences as victims of rape, physical assault, and stalking by all types of assailants are contained in earlier NIJ and CDC reports. Because of the sensitive nature of the survey, state-of-the-art techniques were used to protect the confidentiality of the information being sought and to minimize the potential for retraumatizing victims of violence and jeopardizing the safety of respondents.

Domestic Homicides and Death Reviews

Myrna Dawson 2017-05-19 This edited collection highlights international research on domestic homicides and death reviews which are a rapidly growing intervention/prevention initiative in various countries. Chapters focus on: the impetus for the international development of such initiatives, the identification of risk factors and recommendations for improving systemic responses, the uptake and impact of these recommendations and, finally, the social and public policy implications of outcomes for developed and developing countries. Despite rapid growth, the current state of research and knowledge about domestic violence death review initiatives is limited, fragmented, and primarily descriptive, largely comprising annual public reports. The authors of this book bridge this significant gap by analysing the wide range of models currently in development and operation. A bold and important examination, this work will have a powerful impact on policy makers and

scholars of social science theory, women's studies, and domestic violence.

Innovations in Interventions to Address Intimate Partner Violence Tod Augusta-Scott 2017-04-21 *Innovations in Interventions to Address Intimate Partner Violence: Research and Practice* speaks to what can be done to effectively intervene to end intimate partner violence against women. Including contributions from both researchers and practitioners, chapters describe service innovations across systems in large urban and remote rural contexts, aimed at majority and minority populations, and that utilize a range of theoretical perspectives to understand and promote change in violence and victimization. Reflecting this range, contributions to this volume are organized into five sections: legal responses to domestic violence, intervention with men who have perpetrated domestic violence, responses to women who have experienced domestic violence, restorative approaches to intimate partner violence, and a section on integrating intervention for domestic violence across systems. The book highlights advances in practice which will be of interest to researchers, practitioners, policy makers and students.

New Directions in Child Abuse and Neglect Research National Research Council

2014-03-25 Each year, child protective services receive reports of child abuse and neglect involving six million children, and many more go unreported. The long-term human and fiscal consequences of child abuse and neglect are not relegated to the victims themselves-they also impact their families, future relationships, and society. In 1993, the National Research Council (NRC) issued the report, *Understanding Child Abuse and Neglect*, which provided an overview of the research on child abuse and neglect. *New Directions in Child Abuse and Neglect Research* updates the 1993 report and provides new recommendations to respond to this public health challenge. According to this report, while

there has been great progress in child abuse and neglect research, a coordinated, national research infrastructure with high-level federal support needs to be established and implemented immediately. New Directions in Child Abuse and Neglect Research recommends an actionable framework to guide and support future child abuse and neglect research. This report calls for a comprehensive, multidisciplinary approach to child abuse and neglect research that examines factors related to both children and adults across physical, mental, and behavioral health domains-including those in child welfare, economic support, criminal justice, education, and health care systems-and assesses the needs of a variety of subpopulations. It should also clarify the causal pathways related to child abuse and neglect and, more importantly, assess efforts to interrupt these pathways. New Directions in Child Abuse and Neglect Research identifies four areas to look to in developing a coordinated research enterprise: a national strategic plan, a national surveillance system, a new generation of researchers, and changes in the federal and state programmatic and policy response.

Health Assessment in Nursing Janet Weber 2009-10-01 Now in its Fourth Edition, Health Assessment in Nursing is a colorful, user-friendly introductory level health assessment text for RN-level students. Targeted to ADN and BSN programs, this text presumes no prior knowledge of health assessment and is part of a suite that includes Lab Manual to Accompany Health Assessment in Nursing, Nurses' Handbook of Health Assessment, and Weber & Kelley's Interactive Nursing Assessment. For this edition, the COLDSPA mnemonic, which guides students through investigation of symptoms, has been revised to show specific applications to content in each chapter. A sample application of COLDSPA is presented at the beginning of each chapter's Nursing History section, and another accompanies each case study. The Frail Elderly chapter has been streamlined, with a stronger focus on the normal variations associated with assessment of elderly clients. Includes DVD-ROM.

This Republic of Suffering Drew Gilpin Faust 2009-01-06 NATIONAL BESTSELLER • NATIONAL BOOK AWARD FINALIST • An

"extraordinary ... profoundly moving" history (The New York Times Book Review) of the American Civil War that reveals the ways that death on such a scale changed not only individual lives but the life of the nation. An estimated 750,000 soldiers lost their lives in the American Civil War. An equivalent proportion of today's population would be seven and a half million. In *This Republic of Suffering*, Drew Gilpin Faust describes how the survivors managed on a practical level and how a deeply religious culture struggled to reconcile the unprecedented carnage with its belief in a benevolent God. Throughout, the voices of soldiers and their families, of statesmen, generals, preachers, poets, surgeons, nurses, northerners and southerners come together to give us a vivid understanding of the Civil War's most fundamental and widely shared reality. With a new introduction by the author, and a new foreword by Mike Mullen, 17th Chairman of the Joint Chiefs of Staff.

Victimology William G. Doerner 2014-04-29 Victimology, 7th Edition, introduces students to the criminal justice system in the United States and its impact on crime victims. Authors William Doerner and Steven Lab provide a fresh look at the theoretical basis of victimology and then present the key facets of crime and its effects. They examine financial and social costs both to the individual and to the larger community. This new edition brings forward the theoretical foundation of victimology into Part 1 to establish a clear conceptual framework and reduce repetition. Emerging trends in the field receive greater emphasis in this edition, including non-adversarial resolution options that offer remediation for crime victims. Crimes like intimate-partner violence and victimization in the work or school environment continue to take a toll, and the authors examine efforts to prevent these crimes as well as responses after an incident occurs. Doerner and Lab challenge students to rethink the current response to crime victims and to develop improved approaches to this costly social issue. Online supplements are available for both professors and students. This breakthrough work provides an organizing structure for the history and current state of the field of victimology, and outlines the reasons compelling a separate focus

on crime victims. Highly readable, *Victimology* explores the role of victimology in today's criminal justice system, examining the consequences of victimization and the various remedies now available for victims. A new chapter covers the important implications of restorative justice. The text is supplemented by illustrative figures and tables as well as learning objectives, key terms and a listing of related Internet sites.

Femicide across Europe Weil, Shalva 2018-10-24 Available Open Access under CC-BY-NC licence. Femicide, the killing of women and girls because of their gender, was until recently included in the category 'homicide', obscuring the special features of this social and gendered phenomenon. However, the majority of murders of women are perpetrated by men whom they know from family ties and are the result of intimate partner violence or so-called 'honour' killings. This book is the first one on femicide in Europe and presents the findings of a four-year project discussing various aspects of femicide. Written by leading international scholars with an interdisciplinary perspective, it looks at the prevention programmes and comparative quantitative and qualitative data collection, as well as the impact of culture. It proposes the establishment of a European Observatory on Femicide as a new direction for the future, showing the benefits of cross-national collaboration, united to prevent the murder of women and girls.

Violence Against Women in the US Maddy Coy 2024-04-09 Analyzing what is known about violence against women, this book centers on the contrast between the U.S.'s historic focus on a criminal legal framework and the human rights lens used globally by feminist activists. Distilling the existing evidence base and literature on violence against women in the United States, this book includes an overview of forms of violence, the prevalence of violence, contexts in which violence occurs, and debates about intervention and prevention. It engages with how human rights frameworks define violence against women as a cause and consequence of women's inequality, and explores how race, ethnicity, class, citizenship status, and sexual orientation shape experiences of victimization, perpetration, and institutional responses.

Chapters synthesize prevalence methods and data, key feminist concepts, impacts and aftermath of violence, what is known about perpetrators, the history of anti-violence activism, violence against women on college campuses and in the media, and how the criminal legal systems respond. Contested issues, such as prostitution and pornography, and the extent to which commercial sex can be understood as a form of, and/or context for, violence against women, are also explored. The book closes with a final chapter offering directions for adopting a human rights approach to ending violence against women in the United States. By offering an analysis of how violence against women has come to be named in activist, policy, and academic arenas, *Violence Against Women in the US* is an essential resource for students, scholars, and practitioners.

Queer (In)Justice Joey L. Mogul 2011-02-15 The first comprehensive work to turn a "queer eye" on the criminal justice system, providing an eye-opening study of LGBTQ+ rights and equality. Drawing on years of research, activism, and legal advocacy, *Queer (In)Justice* is a searing examination of queer experiences as "suspects," defendants, prisoners, and survivors of crime. The authors unpack queer criminal archetypes—from "gleeful gay killers" and "lethal lesbians" to "disease spreaders" and "deceptive gender benders"—to illustrate the punishment of queer expression, regardless of whether a crime was ever committed. Tracing stories from the streets to the bench to behind prison bars, the authors prove that the policing of sex and gender both bolsters and reinforces racial and gender inequalities. An eye-opening study of LGBTQ rights and equality, *Queer (In)Justice* illuminates and challenges the many ways in which queer lives are criminalized, policed, and punished.

Child Maltreatment Fatalities in the United States Emily M. Douglas 2016-08-02

This book focuses on the prevention of child abuse and neglect deaths in the U.S. In 2013 1,520 children died from maltreatment. This book defines child maltreatment fatalities (CMFs) and discusses the prevalence of deaths in the U.S. over the last several decades. It addresses the known risk factors for maltreatment deaths

including child, parent, the parent-child relationship, and household risk factors. The main focus of the book addresses the responses and interventions that have been put in place in order to prevent CMFs: the child welfare profession, child death review teams, safe haven laws, criminal justice responses, public education, and new, federal efforts in the U.S. to reduce CMFs in the U.S. The book finishes by making recommendations for researchers, practitioners, and decision-makers about how to prevent fatal maltreatment among children in the U.S.

The Dark Side of Relationship Pursuit Brian H. Spitzberg 2014-04-16 Awards and Praise for the first edition: Recipient of the 2006 International Association for Relationship Research (IARR) Book Award "This text, as it presently stands, is THE go-to text for stalking researchers. That is my opinion and the opinion of multiple fellow scholars I know in the field. It rarely sits on my shelf, but rather is a constant reference on my desk. I can always count on these authors to have done an extensive review of literature. I thought I was thorough, but they are always providing me with new references."--Dr. H. Colleen Sinclair, Associate Professor of Psychology, Mississippi State University "Cupach and Spitzberg provide the reader with a multidisciplinary framework for understanding the nature and impact of unwanted relationship pursuits. This book is an excellent resource for students and professionals alike who seek to gain knowledge about unwanted relational pursuits and stalking." —Journal of Couple & Relationship Therapy *The Dark Side of Relationship Pursuit* provides historical and definitional frames for studying unwanted relationship pursuit, and considers the role of the media, law, and social science research in shaping today's conceptualizations of stalking. The volume integrates research from diverse contributing fields and disciplines, providing a thorough summary and assessment of current knowledge on stalking and obsessive pursuit. Building on the foundation of the award-winning first edition, this revision considers assessment issues, offers an expanded analysis of the meta-analysis data set, and includes coverage of intercultural and international factors. As an increasing number of scholarly disciplines and

professional fields study stalking and other forms of obsessive relationship pursuit, this book is a must-have resource for examining interpersonal conflict, social and personal relationships, domestic violence, unrequited love, divorce and relational dissolution, and harassment. It also has much to offer researchers, counselors, and professionals in psychology, counseling, criminal justice, sociology, psychiatry, forensic evaluation, threat assessment, and law enforcement.

Country Reports on Human Rights Practices for 1996

Presents "Country Reports on Human Rights Practices," which are presented annually by the U.S. Department of State to the U.S. Congress. Explains that the reports cover individual, civil, political, and worker rights. *Domestic Violence Perpetrators* John Devaney 2016-07-15 Domestic violence is a serious, widespread public, social and health problem that affects the lives of many women, children and men. There is also evidence to suggest it has one of the highest rates of recidivism. This comprehensive book provides an overview of what the research tells us about the perpetrators of domestic violence and what works, and what doesn't, in promoting positive change. Collecting together the most up-to-date evidence from the international literature and bringing psychological, sociological, gendered and socio-political theoretical perspectives to bear on the issue, the authors explore: - what domestic violence is, why it happens and how it can be measured - who the perpetrators of domestic violence are, including discussion of non-stereotypical patterns such as male victims, female perpetrators, couples where the abuse is mutual, and couples with abusive relationships who want the abuse to end but the relationship to be sustained - strategies for engaging perpetrators in interventions and for promoting behaviour change - evidence-informed interventions, programmes and policies for working with perpetrators - where robust evidence is lacking and more research needs to be undertaken. Domestic violence is a significant problem for those individuals and families whose life is affected by this issue, the social, health and criminal justice agencies that respond to it, and wider society which must bear the costs and its devastating effects. This volume is an

important reference for all those researching and working with the victims, survivors and perpetrators of domestic violence, including academics and students from fields such as social work, sociology, criminology, psychology and social policy.

Family Violence Rose S. Fife 2012 An important resource for students, health professionals, social workers, and public health professionals, Family Violence addresses etiology, societal impact, and legal and public health policy considerations. It is an ideal text for undergraduate and graduate courses, continuing medical education courses, conferences, and seminars that deal with interpersonal violence. -- Book Jacket.

Why Do They Kill? David Adams (Ed. D.) 2007 This study of domestic homicide in America examines the lives and motivation of men who kill their intimate partners.

Oil, Gas, and Crime Rick Ruddell 2017-07-22 This book addresses the causes of rising crime rates resulting from the rapid population growth and industrialization associated with natural resource extraction in rural communities.

Ruddell describes the social problems emerging in these boomtowns, including increases in antisocial behavior, as well as property-related and violent crime, industrial mishaps and traffic collisions. Many of the victims of these crimes are already members of vulnerable or marginalized groups, including rural women, Indigenous populations, and young people. The quality of life in boomtowns also decreases due to environmental impacts, including air, water and noise pollution. Law enforcement agencies, courts, and correction facilities in boomtowns are often overwhelmed by the growing demand as these places are seldom able to manage the population growth. The key questions addressed here are: who should pay the costs of managing these booms, and how can we prepare communities to mitigate the worst effects of this growth and development and, ultimately, increase the quality of life for boomtown residents. An in-depth and timely study, this original work will be of great interest to scholars of violent crime, criminal justice, and corporate harm.

Violence Alex Alvarez 2016-11-01 The Third Edition of Violence: The Enduring Problem offers an interdisciplinary and reader-friendly exploration of the patterns and correlations of individual and collective violent acts using the most contemporary research, theories, and cases. Responding to the fear of pervasive violence in the world, authors Alex Alvarez and Ronet Bachman address the various legislative, social, and political efforts to curb violent behavior. They expertly incorporate a wide range of the most current cases to help readers interpret the nature and dynamics of a variety of different, yet connected, forms of violence. While most texts of this type simply cover individual acts of violence, this book offers readers a broader perspective, covering more collective

violence activities such as terrorism, mob violence, and genocide.

The Batterer as Parent Lundy Bancroft 2012 Moving beyond the narrow clinical perspective this book offers a view that takes into account the complex ways in which a batterer's abusive and controlling behaviors are woven into the fabric of daily life.

Anthropology at the Front Lines of Gender-Based Violence Jennifer R. Wies 2011-08-22 The inside stories of workers struggling to counter violence

Communities in Action National Academies of Sciences, Engineering, and Medicine 2017-03-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful

ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.
