*Recharge Your Library Programs with Pop Culture and Technology:* Linda D. Behen 2013-06-17 Learn how to integrate pop culture and technology into school library programs and classrooms, and make today's digital content, mobile devices, and students' changing interests work to the educator's advantage. Today's school libraries need to evolve and meet the needs of 21st-century students—the instruction, programming, and library services must be relevant to today's learners. Additionally, the interactions between educators and the students are what make the critical difference in the students' learning, and turn the library and classroom into places where they will find, assimilate, experience, and understand information. This book provides practical strategies for using pop culture and technology trends to connect with easily distracted middle and high school students and hold their attention. Author Linda D. Behen addresses why school libraries are in transition and why there is a need for dramatic change. She discusses the evolution of all libraries in response to digital content; ubiquitous mobile devices such as smart phones, iPads, and other tablet computers; patrons' changing interests; and the ways in which schools and school libraries have found to effectively adapt to technology changes and student needs. This book is essential for middle and high school librarians and educators, library school students and instructors, and young adult public librarians.

*The Band* Craig Harris 2023-06-14 Includes previously unpublished interviews and photos:

“His research is extensive, but the overall pace through these two hundred pages is breezy and entertaining.” —Vintage Rock At a time when acid rock and heavy metal dominated popular music, The Band rebelled against the rebellion with tight ensemble arrangements, masterful musicianship, highly literate lyrics, and a respect for the musical traditions of the American South. Comprised of Canadians Robbie Robertson, Rick Danko, Richard Manuel, and Garth Hudson, and Arkansas-born Levon Helm, The Band sparked a new appreciation for America's musical roots, fusing R&B, jump blues, country, folk, boogie-woogie, swing, Cajun, New Orleans-style jazz, and rock, and setting the foundations for the Americana that would take hold thirty years later. *The Band: Pioneers of Americana Music* explores the diverse influences on the quintet's music, and the impact that their music had in turn on contemporary music and American society. Through previously unpublished interviews with Robbie Robertson, Eric Andersen, Pete Seeger, and the late Rick Danko, as well as numerous other sources, Craig Harris surveys The Band's musical journey from sidemen for, among others, Ronnie Hawkins and Bob Dylan to rock legends in their own right. Touching on the evolution of rock and roll, the electrifying of folk music, unionism, the Civil Rights Movement, changes in radio formatting, shifting perceptions of the American South, and the commercializing of the counterculture, as well as drug dependency, alcoholism, suicide, greed, and the struggle against cancer, Harris takes readers from The Band's groundbreaking albums, *Music from Big Pink* and *The Band*, through their final releases and solo recordings, as well as their historic appearances at Woodstock, the Isle of Wight Festival (with Dylan), Watkins Glen (with the Allman Brothers Band and the Grateful Dead), and the filmed final concert known as the *Last Waltz* (with an all-star cast). Sixteen previously unpublished photographs, by the author, are included. *Hearts of Darkness* Jana Monroe 2023-10-10 For fans of *Mindhunter*, *Criminal Minds*, and *My Favorite Murder*, a riveting memoir of a trailblazing woman's life hunting down serial killers as one of the first female profilers of the FBI Behavioral Sciences Unit and the real-life model for Clarice Starling in *The Silence of the Lambs*. "Jana Monroe is the single most influential woman to ever serve in the FBI."

—Joe Navarro, bestselling author of *What Every BODY Is Saying* Jana Monroe was no ordinary cop. One of the first analysts—and, at the time, the only female agent—in the world-renowned FBI Behavioral Sciences Unit at Quantico, she consulted on more than 850 homicide cases, including infamous serial killers Ted Bundy, Jeffrey Dahmer, Edmund Kemper, and Aileen Wuornos. Monroe was also the model for Clarice Starling in the movie version of *The Silence of the Lambs*; she even helped train Jodie Foster for her Oscar-winning role. Monroe's later years found her dealing with the aftermath of Columbine, heading up the FBI's post-9/11 investigation in Las Vegas, and much more. In *Hearts of Darkness*, Monroe steps out from the shadows to tell the story of her astonishing life in shaping law enforcement and intelligence analysis. Monroe explores the cases that have stayed with her, breaking down victimology, offering new insight into the minds of serial killers, and discussing the psychological toll of the job and the obstacles she faced as a woman in the male-dominated Bureau. This is a gripping, sometimes gruesome, and always remarkable memoir of an unparalleled life and career spent chasing the monsters among us.

*Arts in Earnest* Daniel W. Patterson 1990 *Arts in Earnest* explores the unique folklife of North Carolina from ruddy ducks to pranks in the mill.

Traversing from Murphy to Manteo, these fifteen essays demonstrate the importance of North Carolina's continually changing folklife. From decoy carving along the coast, to the music of tobacco chants and the blues of the Piedmont, to the Jack tales of the mountains, *Arts in Earnest* reflects the story of a people negotiating their rapidly changing social and economic environment. Personal interviews are an important element in the book. Laura Lee, an elderly black woman from Chatham County, describes the quilts she made from funeral flower ribbons; witnesses and friends each remember varying details of the Duke University football player who single-handedly vanquished a gang of would-be muggers; Clyde Jones leads a safari through his backyard, which is filled with animals made of wood and cement that represent nontraditional folk art; the songs and sermon of a Primitive Baptist service flow together as one—"it tills you up all over"; Durham bluesman Willie Trice, one of a handful of Durham musicians who recorded in the 1930s and early 1940s, remembers when the active tobacco warehouses offered ready audiences—"They'd tip us a heap of change to play some music"; and Goldsboro tobacco auctioneer H. L. "Speed" Riggs chants 460 words per minute, five to six times faster than a normal conversational rate.

**Why Asking Donors For Money Causes Donors To Give Less** Lindsay Walton 2018-10-03

Treating your donors as members of a community rather than as individual units MATTERS! Human beings have limited interest in supporting others by giving money. However, they have an intense interest in supporting others through sharing resources. In fact, there are 6 Key Resource Categories that you can count on donors giving from if you ask. What category they choose to give from will simply depend on who you are and what you are asking for at the time! Traditional fundraising tools and practices focus on leveraging donor PSYCHOLOGY, the inner workings of an individual's mind, and as a result consistently only gain access to 17% of what a donor community is interested in giving.

Understanding the power of donor SOCIOLOGY, the dynamic workings of people's minds when they live in community with others changes everything! Knowing more about these principles can help you gather more resources than you ever thought possible!

**Marriage Relationships in Tudor Political Drama** Michael A. Winkelman 2019-07-12

Originally published in 2005. While several recent studies have investigated the political dimensions of sixteenth-century English drama, until now there has not been a monograph that tells the story of how and why royal marital selection was examined. By linking court interludes, neoclassical university tragedies, and popular plays by late Elizabethan dramatists Christopher Marlowe, John Lyly, Thomas Kyd, and William Shakespeare to the inflammatory topic of Tudor marriage, Michael Winkelman demonstrates their cultural centrality. This new work interrogates the symbolic, allusive, and mimetic aspects of marital relationships in such plays. Winkelman argues that they were crucial battlegrounds for a series of consequential

debates about the future of the monarchy, especially during the reigns of the oft-married King Henry VIII and his unmarried daughter, the Virgin Queen Elizabeth I. Marriage, as a critically important political metaphor as well as a pressing realpolitik quandary, was the subject of major debate in the drama and government of Tudor England. Royal conduct in the domestic sphere had a tremendous impact on the entire English social order, and in an age before widespread freedom of speech, court drama was often the only venue where the voicing of criticism was tolerated. The fascinating soap-opera story of Tudor marriage thus provides the author with a reference point for an interdisciplinary study of sixteenth-century theatre and politics. Drawing on evidence from playbooks and historical chronicles as well as contemporary work in gender studies, audience-response theory, and anthropology, this book explores how during a time of anxiety-inducing change, playwrights discussed controversies and propounded remedies; theatre played a pivotal role in shaping society.

*Khrushchev's Cold Summer* Miriam Dobson  
2011-01-15 Between Stalin's death in 1953 and 1960, the government of the Soviet Union released hundreds of thousands of prisoners from the Gulag as part of a wide-ranging effort to reverse the worst excesses and abuses of the previous two decades and revive the spirit of the revolution. This exodus included not only victims of past purges but also those sentenced for criminal offenses. In *Khrushchev's Cold Summer* Miriam Dobson explores the impact of these returnees on communities and, more broadly, Soviet attempts to come to terms with the traumatic legacies of Stalin's terror. Confusion and disorientation undermined the regime's efforts at recovery. In the wake of Stalin's death, ordinary citizens and political leaders alike struggled to make sense of the country's recent bloody past and to cope with the complex social dynamics caused by attempts to reintegrate the large influx of returning prisoners, a number of whom were hardened criminals alienated and embittered by their experiences within the brutal camp system. Drawing on private letters as well as official reports on the party and popular mood, Dobson probes social attitudes

toward the changes occurring in the first post-Stalin decade. Throughout, she features personal stories as articulated in the words of ordinary citizens, prisoners, and former prisoners. At the same time, she explores Soviet society's contradictory responses to the returnees and shows that for many the immediate post-Stalin years were anything but a breath of spring air after the long Stalinist winter.

**Flexible Authoritarianism** Anna Schwenck  
2023-12-19 Flexible Authoritarianism challenges the idea that the transnational rise of authoritarianism is a backlash against economic globalization and neoliberal capitalism. Flexible authoritarianism--a form of government that simultaneously incentivizes a can-do spirit and suppresses dissent--reflects the resonance between authoritarian and neoliberal ideologies in today's comeback of strongman rule. The book conveys the look and feel of flexible authoritarianism in Russia through the eyes of up-and-coming youth. Drawing on field observations, in-depth interviews, and analyses of documents and video clips, Anna Schwenck demonstrates how flexible authoritarianism is stabilized ideologically by the insignia of cool start-up capitalism and by familiar cultural forms such as the summer camp. It critically evaluates how loyalty to the regime--the order underlying political and economic life in a polity--is produced and contested among those young people who seek key positions in politics, business, the public sector, or creative industries.

*The Bridge at Andau* James A. Michener

2014-03-18 The Bridge at Andau is James A.

Michener at his most gripping. His classic nonfiction account of a doomed uprising is as searing and unforgettable as any of his bestselling novels. For five brief, glorious days in the autumn of 1956, the Hungarian revolution gave its people a glimpse at a different kind of future—until, at four o'clock in the morning on a Sunday in November, the citizens of Budapest awoke to the shattering sound of Russian tanks ravaging their streets. The revolution was over. But freedom beckoned in the form of a small footbridge at Andau, on the Austrian border. By an accident of history it became, for a few harrowing weeks, one of the most important crossings in the world, as the soul of a nation fled across its unsteady planks. **BONUS:** This edition includes an excerpt from James A. Michener's Hawaii. Praise for *The Bridge at Andau* "Precise, vivid . . . immeasurably stirring."—The Atlantic Monthly "Dramatic, chilling, enraging."—San Francisco Chronicle "Superb."—Kirkus Reviews "Highly recommended reading."—Library Journal

*Interwar Crossroads* Leon Julius Biela

2022-11-07 Studying the entangled histories of the areas conceptualized as Middle Eastern and North Atlantic World in the interwar years is crucial to understanding the two areas' respective and common histories until today. However, many of the manifold connections, exchanges, and entanglements between the areas have not received thorough scholarly attention yet. The contributors to this volume address this by bringing together various innovative and interdisciplinary approaches to the topic. They thereby further the

understanding of the two areas' entangled histories and diversify prevailing concepts and narratives. Through this, the volume also offers enriching insights into the global history of the early 20th century.

**Sleepaway** Jay Dragon 2019 "The core system of Sleepaway is based on Dream Askew & Dream Apart by Avery Alder and Benjamin Rosenbaum. By extension, it is powered by the Apocalypse World Engine, by D. Vincent Baker and Meguey Baker. Rituals are based on Chuubo's Marvelous Wish-Granting Engine by Jenna Moran, and PinFeathers/Cloud Studies by Jeeyon Shim. Lines and Veils were developed by Ron Edwards for the game Sorcerer. The heart of this game's play is based on House of Miracles by Kal Muste, from the Wayfinder Experience. The value of ritual and the power of the underworld is based on Secrets of the Forbidden Isle by M Grant, from the Wayfinder Experience."--Page 5. "In Sleepaway, you play as a camp counselor at a not-so-ordinary summer camp besieged by a strange and ominous cryptid. In the outside world, people grow increasingly alienated from their own identities, trapped in a miasma of advertising and corporate branding. Isolated from civilization, this summer camp is a beacon of safety, a refuge for misfit kids defined by their marginalization. As time pushes past and the world grows older, this camp also shelters the survivors of the Lindworm. The Lindworm is a shapeshifter, or so the stories go; a creature that flays the skin of humans and hides within. As counselors of this summer camp, you've each been traumatized by the Lindworm, in your own ways."--Page 10.

**Popular Culture and the Civic Imagination**

Henry Jenkins 2020-02-04 Winner, 2021 Ray and Pat Browne Edited Collection Award, given by the Popular Culture Association How popular culture is engaged by activists to effect emancipatory political change One cannot change the world unless one can imagine what a better world might look like. Civic imagination is the capacity to conceptualize alternatives to current cultural, social, political, or economic conditions; it also requires the ability to see oneself as a civic agent capable of making change, as a participant in a larger democratic culture. Popular Culture and the Civic Imagination represents a call for greater clarity

about what we're fighting for—not just what we're fighting against. Across more than thirty examples from social movements around the world, this casebook proposes "civic imagination" as a framework that can help us identify, support, and practice new kinds of communal participation. As the contributors demonstrate, young people, in particular, are turning to popular culture—from Beyoncé to Bollywood, from Smokey Bear to Hamilton, from comic books to VR—for the vernacular through which they can express their discontent with current conditions. A young activist uses YouTube to speak back against J. K. Rowling in the voice of Cho Chang in order to challenge the superficial representation of Asian Americans in children's literature. Murals in Los Angeles are employed to construct a mythic imagination of Chicano identity. Twitter users have turned to #BlackGirlMagic to highlight the black radical imagination and construct new visions of female empowerment. In each instance, activists demonstrate what happens when the creative energies of fans are infused with deep political commitment, mobilizing new visions of what a better democracy might look like.

**Healing after Parent Loss in Childhood and Adolescence** Phyllis Cohen 2014-01-31

In *Healing after Parent Loss in Childhood and Adolescence: Therapeutic Interventions and Theoretical Considerations*, experts explore the varied, often complex, and always tragic circumstances under which young people face losing a parent. Profound grief and feelings of powerlessness may accompany loss of a parent at any age, but distinctly so when such loss is experienced during formative years. Whenever these individuals seek help, therapists must be psychically prepared to enter into arenas of trauma, bereavement, and mourning. The children, teens, and adults presented are diverse in age, culture/ethnicity, and socioeconomic status. A diverse group of contributors showcase a wide range of effective approaches—from traditionally structured short- and long-term psychotherapies and psychoanalysis, to psycho-educational, supportive, and preventive interventions. The writers in this volume do not shy away from tough matters such as urban

violence, AIDS, and war; they address concerns practicing clinicians face, such as when to work with children, adolescents, and adults individually, and when and how to involve their surviving parents and families. Included in this book are issues related to the self-care and professional development needs of therapists who take on this difficult but essential work, including peer support and supervision. This volume is likely to spark important re-examinations across all fields of mental health practice. It will equip and empower clinicians of all kinds who undertake work with those who are grieving. *Healing after Parent Loss in Childhood and Adolescence* promises to be a vital and stimulating read for supervisors, teachers, and trainers of child, adolescent, and family clinicians.

**Phonological Templates in Development**

Marilyn May Vihman 2019-10-24 This book explores the role of phonological templates in early language use from the perspective of usage-based phonology and exemplar models and within the larger developmental framework of Dynamic Systems Theory. After analysing children's first words and their adult targets, Vihman sets out procedures for establishing the children's later prosodic structures and templates, drawing on data from American and British English, Estonian, Finnish, French, Italian, and Welsh; she also provides briefer longitudinal accounts of template use in Arabic and Brazilian Portuguese. The children are found to begin with simple word forms that match their selected adult targets; this is followed by the production of more challenging words, adapted to fit the child's existing patterns. Early accuracy is replaced by later recourse to an 'inner model' - a template - of a favoured word shape. The book also examines the timing, fading, quantification, and function of child phonological templates. In addition, two chapters focus on the use of templates in adult language, in the core grammar and in the more creative morphology of colloquial 'short forms' and hypocoristics in French and Estonian and of

English rhyming compounds. The idea of templates is traced back to its origins in Prosodic Morphology, but its uses are most in evidence in the informal settings of adult language 'at play'. Throughout the volume, the discussion returns to the issues of emergent systematicity, the roles of articulatory and memory challenges for children, and the similarities and differences in the function of templates for adults as compared with children.

### **Refugee Voices in Modern Global History**

Peter Gatrell 2025-03-31 Across modern history, refugees have articulated their experiences and wishes against the backdrop of mass displacement brought about by world wars, civil war, revolution, population exchange, decolonisation, and state formation. Men and women displaced in different sites, from different backgrounds, and at different times have played for high stakes: they deliberated about what to say and to whom, and they sought, expected, and effected a response. *Refugee Voices in Modern Global History* places refugees at the centre of modern history. It demonstrates how ordinary refugees understood their experiences of displacement and engaged with institutions that sought 'solutions' to their predicament. Ranging widely across global contexts to establish what refugees had to say and to whom, it shows them to have consistently been purposeful actors, making it possible to transcend conventional and hackneyed depictions of 'crisis'. By adopting the term 'refugeedom' the authors show how the voices and perspectives of refugees can be incorporated alongside the power dynamics associated with the multiple incarnations of the refugee regime that 'managed' refugees and articulated 'solutions' to their predicament. Extensive archival research across three continents makes it possible to explain in comparative terms the significance attached to the encounters between refugees and officials in modern Europe, South Asia, the Middle East, East Asia, and sub-Saharan Africa. The result is an original and in-depth study of the contrasting responses of refugees to displacement and to the arrangements made on their behalf at a series of critical junctures in the past.
