Place-and Community-Based Education in

Schools Gregory A. Smith 2014-04-08 Place- and

community-based education – an approach to teaching and learning that starts with the local – addresses two critical gaps in the experience of many children now growing up in the United States: contact with the natural world and contact with community. It offers a way to extend young people’s attention beyond the classroom to the world as it actually is, and to engage them in the process of devising solutions to the social and environmental problems they will confront as adults. This approach can increase students’ engagement with learning and enhance their academic achievement. Envisioned as a primer and guide for educators and members of the public interested in incorporating the local into schools in their own communities, this book explains the purpose and nature of place- and community-based education and provides multiple examples of its practice. The detailed descriptions of learning experiences set both within and beyond the classroom will help readers begin the process of

advocating for or incorporating local content and experiences into their schools.

The Second World War Antony Beevor
2012-06-05 A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included Stalingrad and The Fall of Berlin 1945. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a

dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military historian of the first rank.

Charting the Emerging Field of Japanese Diaspora Archaeology Douglas E. Ross
2023-04-29 This book examines the Japanese

diaspora from the historical archaeology perspective—drawing from archaeological data, archival research, and often oral history—and explores current trends in archaeological scholarship while also looking at new methodological and theoretical directions. The chapters include research on pre-War rural labor camps or villages in the US, as well as research on western Canada (British Columbia), Peru, and the Pacific Islands (Hawai'i and Tinian), incorporating work on understudied urban and cemetery sites. One of the main themes explored in the book is patterns of cultural persistence and change, whether couched in terms of maintenance of tradition, “Americanization,” or the formation of dual identities. Other themes emerging from these chapters include consumption, agency, stylistic analysis, community lifecycles, social networks, diaspora and transnationalism, gender, and sexuality. Also included are discussions of trauma, racialization, displacement, labor, heritage, and

community engagement. Some are presented as fully formed interpretive frameworks with substantial supporting data, while others are works in progress or tentative attempts to push the boundaries of our field into innovative new territory. This book is of interest to students and researchers in historical archaeology, anthropology, sociology of migration, diaspora studies and historiography. Facing the Mountain Daniel James Brown
2022-05-10 A NEW YORK TIMES BESTSELLER

One of NPR's "Books We Love" of 2021
Longlisted for the PEN/Jacqueline Bograd Weld Award for Biography Winner of the Christopher Award "Masterly. An epic story of four Japanese-American families and their sons who volunteered for military service and displayed uncommon heroism... Propulsive and gripping, in part because of Mr. Brown's ability to make us care deeply about the fates of these individual soldiers... a page-turner." - Wall Street Journal
From the #1 New York Times bestselling author of *The Boys in the Boat*, a gripping World War II saga of patriotism and resistance, focusing on four Japanese American men and their families, and the contributions and sacrifices that they made for the sake of the nation. In the days and months after Pearl Harbor, the lives of Japanese Americans across the continent and Hawaii were changed forever. In this unforgettable chronicle of war-time America and the battlefields of Europe, Daniel James Brown portrays the journey of Rudy Tokiwa, Fred Shiosaki, and Kats

Miho, who volunteered for the 442nd Regimental Combat Team and were deployed to France, Germany, and Italy, where they were asked to do the near impossible. Brown also tells the story of these soldiers' parents, immigrants who were forced to submit to life in concentration camps on U.S. soil. Woven throughout is the chronicle of Gordon Hirabayashi, one of a cadre of patriotic resisters who stood up against their government in defense of their own rights. Whether fighting on battlefields or in courtrooms, these were Americans under unprecedented strain, doing what Americans do best—striving, resisting, pushing back, rising up, standing on principle, laying down their lives, and enduring.

United States Code United States 2013 "The United States Code is the official codification of

the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes

legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.

Coastal Mass Tourism Bill Bramwell 2004-02-05
 The Mediterranean coastal regions of Southern Europe have long been world leaders in mass tourism. This book examines some key questions for tourism development in these areas, with implications for similar regions across the world. The standardised forms of mass tourism are diversifying - with more specialised forms, notably those based on nature, culture and heritage, and those catering for special interests. There is a growing spectrum of modes of tourism, with an emphasis on variety, flexibility and permeability. Both mass tourism and the more diversified forms substantially impact on sustainable development. Policies

promoting sustainable development are often of two main types: developing smaller-scale, alternative tourism products that are intended to be less damaging to the environment and society, and secondly, attempts to make mass tourism coastal resorts more sustainable. But there has been little critical assessment of these policies, either evaluating their basic assumptions or their successes and failures in practice. This edited book critically examines these issues for varied coastal regions in Southern Europe, including case studies from Spain, Croatia, Turkey, and north and south Cyprus.

Tip of the Spear Alfred Peredo Flores
2023-09-15 In *Tip of the Spear*, Alfred Peredo Flores argues that the US occupation of the island of Guåhan (Guam), one of the most heavily militarized islands in the western Pacific Ocean, was enabled by a process of settler militarism. During World War II and the Cold War, Guåhan was a launching site for both covert and open US military operations in the region, a strategically significant role that turned Guåhan into a crucible of US overseas empire. In 1962, the US Navy lost the authority to regulate all travel to and from the island, and a tourist economy eventually emerged that changed the relationship between the Indigenous CHamoru population and the US military, further complicating the process of settler colonialism on the island. The US military occupation of Guåhan was based on a co-

constitutive process that included CHamoru land dispossession, discursive justifications for the remaking of the island, the racialization of civilian military labor, and the military's policing of interracial intimacies. Within a narrative that emphasizes CHamoru resilience, resistance, and survival, Flores uses a working class labor analysis to examine how the militarization of Guåhan was enacted by a minority settler population to contribute to the US government's hegemonic presence in Oceania.
